Mr. Marc Purc
Sangamo Electricity Division
Schlumberger Canada Limited
215 Laird Drive
Toronto, Ontario M4G 3X1

1990-04-23

Dear Mr. Purc,

This is in response to your recent notification given in accordance with the Electricity & Gas Inspection Regulations, Section 13, regarding devices approved under Notice of Approval E-175. It is noted that these devices are to be modified as follows:

- New Printed circuit board layout on grid pattern replacing originally approved random layout.
- Addition of a quartz crystal to replace the RC network previously used in the clock of the microprocessor.

I am advised by the Electrical Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

W.R. Virtue, Chief
Legal Metrology Laboratories
