Attention: Mr. K. E. Newbold

1992-04-30

Dear Mr. Newbold,

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notice of Approval E-243. It is noted that these devices are to be modified as follows:

- Disks may be stamped with a die which stipples a larger area of the disk surface.
- Anti-creep holes may be at a radius of 0.880 inches rather than the original 0.800 inches.
- This will permit interchange of disks between D5 and D4 meters.

I am advised by the Electrical Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

W.R. Virtue, Chief
Legal Metrology Laboratories
