Re: Packard Metering Outfits

Please be advised that the following types of Packard metering outfits may be considered as having been approved by the Standards Branch:

"DS", "DS2", "DS5", "DS8", "VB", "VE12", "VE8",
"CDS5", "DS15", "VE34".

The current and voltage transformers installed in the above metering outfits conform to the basic designs covered by Circular NRC-72 of June 20, 1935.

(K. Cryer)
Chief, E&G Division.

EAW/mee

*all SL-100-596 since approved VE-48 metering outfit
contains CC sub-stations and CC sub-stations*
