(See Approval Circulars SD-EA.182, March 23, 1955; SD-EA.402, May 5, 1959; and SD-EA.407, July 7, 1959 for other ratings applicable to these instruments)

Description: The "E5" in the catalogue number denotes that the standard cell and dry cell have been replaced by a constant voltage D.C. power supply of the Zener Diode variety. The new power supply eliminates the automatic standardizer previously used. The external appearance and application are unchanged. Refer also to Circular S-EA.430, December 29, 1959.
