

SFE-110

(cancelling and replacing  
SFE-100 of Sept. 11.

SE-85-6-7  
SL-100-430(K)  
SL-100-SFE

Ottawa, September 19, 1967.

Sangamo Company Limited,  
215 Laird Drive,  
Leaside (Toronto 17),  
Ontario.

Attention: Mr. M. R. Sabiston, P.Eng.,  
Engineering Department.

SPECIAL APPROVAL - One Only - Sangamo Type "SC2"  
Graphic Thermal Demand Meter  
with 20% Raised Zero, Serial  
Number 6914228

Dear Sirs:

This is to advise that Special Approval has been granted by the Standards Branch for use in Canada for billing purposes to the above-named apparatus.

This instrument is rated at 120 volts, 5 amps., 60 hz, 3-phase 3-wire, 2-element, 0.2-0-0.8 kw full scale, testing time 20 min.

The installation will be at Lakehead University, Port Arthur, Ontario, on a 23 kv 3-phase 3-wire service, and is used with a Ferranti-Packard type "MP-25" metering unit with two 23000-115 volt potential transformers and two 300/150-5 amp. current transformers. It is expected that it will be used to measure RVA.

This Special Approval cancels and replaces SFE-100 of September 11, 1967, which listed an incorrect testing time.

Yours very truly,

W. J. S. Fraser, Chief,  
Electricity and Gas Division,  
Standards Branch.

EAW/mee
