SPECIAL APPROVAL

Granted to: G.E.C. Switchgear Ltd.,
 Higher Openshaw
 Manchester
 U.K.

Attention: Mr. R.K. Cragg
 Contracts Department

Subject: Two voltage transformers
 AEI Type PTA 893
 Primary voltage 13.8 Kv, 3-ph.
 Secondary voltages 115-197
 60 Hz
 Serial Nos. 56418.H, 56418.K

Special Approval has been granted by the Standards Branch to the above named apparatus for use in Canada for billing purposes.

These transformers are 3-phase, oil filled, with drawable, cubicle type.

Secondaries are tapped and the full or tapped connections may be used. Terminal identification is provided on AEI drawing No. D5326243.

Accuracy rating is 0.3WXY, 0.6Z

These transformers are installed in switchgear at the Come-by-Chance refinery at Come-by-Chance, Nfld., to measure the power and energy supplied by the Newfoundland and Labrador Power Commission.
