Attn.: Mr. Ed Vink

Dear Sirs:

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notice of Approval AG-0337, dated 1993/04/15. It is noted that these devices are to be modified as follows:

- Some sequencing and fill control components may be located on a separate panel (reference photo 1 on page 2).
Photo 2 on page 2 shows the dispenser with the components not relocated to this separate panel.

I am advised by the Gas Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

H.L. Fraser, Chief
Electricity and Gas
