Dear Sir,

This is in response to your recent notification given in accordance with the Electricity and Gas Inspection Regulations, Section 13, regarding devices approved under Notice of Approval G-167 dated 87/6/7. It is noted that these devices are to be modified as follows:

- an updated version of the system controller (model 2251) is hereby approved for use. Model 2251 provides communications advantages over model 2250. No change has been made to the programs which control the operation (measurement) features of the chromatographic system.

I am advised by the Gas Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

H.L. Fraser, A/Director
Legal Metrology Branch
