Re: Application for Modifications to CNG Natural Gas Dispensers - Models 1001 and 2001

Dear Mr. Leung:

This letter is in response to your letter dated June 11, 1986, regarding modifications to the type/models of dispensers described above, which are currently approved in Notice of Approval G-172, dated January 10, 1986. I am advised that the Gas Laboratory has evaluated the modifications of (a) mounting the computer display board (Register) in a "free-standing" mode inside the dispenser instead of having it fixed to the upper cover plate, and (b) replacing the Kraus head serial number with:

1. the manufacturer's name, and
2. model designation, as required in section 10-4 of current specifications for compressed natural gas dispensers.

The conclusion is that they may be regarded as insignificant, and hence included within the existing approval.

All recipients of Notices of Approval, under the Electricity and Gas Inspection Act, are being informed of this decision by copy of this letter.

Yours truly,

W.R. Virtue
Chief,
Legal Metrology Laboratories
