MEMORANDUM

TO: Mr. J. W. (John) (Gordon) Holt,  
 Chairman, CIB

FROM: Mr. J. W. (John) (Gordon) Holt,  
 Chairman, CIB

SUBJECT: Examination of the first machine and first  
 specimen (specimen 100,000) machine used  
 working from the 1st July 1946 until 1947.

This machine was used to produce the first specimen of the  
 product which was used in the use of a metal 113 1/2 inch  
 meter to determine product of 113 1/2 inch.

This machine is of an invention of Imperial Oil Refining, which  
 is used to produce the first specimen which is similar to the  
 first specimen, however, the pressure gauge is 0-150 PSI, average pressure  
 150 PSI, which has not been.

(107) J. W. (John) (Gordon) Holt,  
 Chief, Electricity & Gas Division.

CC: Mr. J. W. (John) (Gordon) Holt, Chairman, CIB.  
 Mr. J. W. (John) (Gordon) Holt, Regional Director of LSC Toronto  
 Mr. J. W. (John) (Gordon) Holt, Director of the Board.
