SPC-172

1147-4

1147-57/C6-1128

OTTAWA, June 22, 1972

SPECIAL APPROVAL

Granted to: Canadian Meter Company Ltd.,
3037 Derry Road West,
Hilton, Ontario.

Attention: Mr. J. A. Orwin,
Manager of Engineering & Manufacturing

Subject: Gas Meter Registers fitted with pulses
for Telemetering System

This is to advise that approval has been granted to Canadian Meter Company to modify ten of the gas meters covered by Special Approval SPG-126, September 7, 1971. The modification consists of replacing the Index Box with a new design incorporating a new type switch developed by American Meter Company.

The meters so modified will form part of the experimental telemetering system being developed by Northwestern Utilities.

W.J.S. Fraser,
Chief,
Electricity & Gas Division.

Mr. F. M. Barchard
Canadian Meter Co. Ltd.
9919 - 65 Avenue
EDMONTON, Alberta

Dear Frank:

The following is the list of numbers of the meters that have been equipped with reed switches on their indices for the telephone read-out testing:

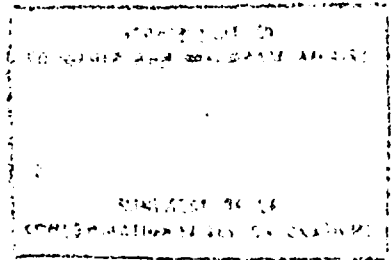

147767	147781	147791*
147768	147782	147792*
147773	147783	147794
147774	147784	147795*
147775	147785	147796*
147776	147786	147797*
147777	147787	147798*
147778	147788*	147799*
147779	147789	147800*
147780	147790*	151487

Those marked with an asterisk will be replaced with the following numbers of the meters fitted with the newly approved switches:

122332	123389	124176
122599	123492	124200
122602	123682	139952
123271		

Yours very truly

J. G. DALE, P. Eng.
