Subject: Use of Fischer & Porter <sup>Integrator</sup> Summator Serializer  
in Gas Metering Installation

Special Approval has been granted by the Standards Branch to Gaz Métropolitain, inc., to use a Fischer & Porter Summator Serializer in a gas metering installation.

This is a trial installation for the purpose of studying the feasibility and reliability of using the summator for gas measurement. The installation is to be made at Christie Brown and Company, Ltd., 3055 Viau St., Montreal, Que. The F & P Summator, will receive pulses from two Canadian Meter Base Volume Continuous Integrators fitted with Telecounter attachments, and the volume registered by the Base Volume indexes, will be recorded on a single Fischer and Porter Survey recorder.

Summator Model 55CP1010EAL. (The model number denotes a unit capable of receiving pulses from two sources and used with a single F. & P. Recorder)

Canadian Meter Base Volume indexes, #92-46877 and 92-43622.

Fischer and Porter Gas Survey Recorder, model 35-1543FA13A-MS33,  
Inspection No. 184-197000.
