SPECIAL APPROVAL

Granted to: The Alberta Gas Trunk Line
P.O. Box 2535
Calgary, Alberta, Canada.

Attention: Mr. R.F. Buchanan
Superintendent Off-Line Sales

Subject: Pressure Factor Metering for Alberta
Government Rural Gas Plan.

Special Approval has been granted by the Standards Branch to Alberta Gas Trunk Line to use Pressure Factor Metering in supplying gas to rural co-operatives under the Alberta Government Rural Gas Plan. This Special Approval applies to those installations where the metering pressure and maximum load exceed the limits established under the Rules for Pressure Factor Measurement Installations dated March 1, 1973.

Except for the regulator output pressure and maximum load, all other requirements of the above mentioned "Rules" shall apply. The Alberta Gas Trunk Lines shall register all installations with the District Office concerned and they shall be subject to such inspections as may be required from time to time.

This Special Approval sets the metering pressure at a maximum of 80 psig and the load at a maximum of 20,000 standard cubic feet per hour.

W.J.S. Fraser
Chief, Electricity & Gas Division
