RE: Approval Application Project Number AP-84/5-GL-14; Modification to UGC Industries Gravitometer described in Special Approval SPG-272 dated June 1, 1984

Dear Mr. McLeod:

This letter is in response to your letter dated September 5, 1984, regarding a modification to the type/models of meters described above, which are currently approved in Notice of Special Approval SPG-272. I am advised that the Gas Laboratory has evaluated the modification, of incorporating an electrical hook-up to supply Ocelot Industries with a Relative Density reading from the Gravitometer described above. The conclusion is that it may be regarded as insignificant, in relation to the approval provisions of the Gas Inspection Act.

Accordingly, pursuant to the authority delegated to me by the Director under section 7 of the Gas Inspection Regulations;

1. your letter is hereby acknowledged as satisfying the notification requirements of subsection 7(s) of the regulations; and
2. the proposed alteration is hereby accepted, in accordance with subsection 7(3) of the Regulations, as being an immaterial one and hence included within the approval.

All recipients of Notices of Approval under the Gas Inspection Act are being informed of this decision by copy of this letter. For our records you are requested to advise us of the starting serial number when the change is initiated in production.

Yours truly

W.R. Virtue  
Chief,
