

OFFICE OF THE DIRECTOR

TRADE AND COMMERCE
CANADA

STANDARDS DIVISION

OTTAWA, March 28th, 1953.

NOTIFICATION OF TYPE LISTING

Under the provisions of the Weights and Measures Act, Chapter 36, S.C. 1951, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Portable platform beam type scales for floor or bench use, which may be fitted with an E. W. over and under indicator. Models 4063, 4063R, 4005-2 and 4003-2, manufactured by the Exact Weight Company, Columbus, Ohio, U.S.A.

Rating of Apparatus: Capacities - 300 lbs., 300 lbs., 500 lbs., and 300 lbs., respectively.

Application: Weighing of Commodities in general trade.

Conditions: As prescribed in P.C. 6894, graduations on the over and under chart may not be marked with weight values.

Description: Models 4063, 4063R and 4005-2 are floor type portable platform scales. Model 4063R is supplied with a roller conveyor section. Model 4003-2 is a bench type platform scale. The lever system is of the usual short and long lever construction. Bearings and pivots are of hardened steel and are self aligning. The beam fulcrum bearing is agate and the beam is compound with two bars, each graduated and notched to 10 lbs. by 1 ounce graduations. The action of the beam is damped by an oil dash-pot located at the butt of the beam. The scale may be equipped with an over and under head with a twin flat spring, each in the form of an arc. The platform and base are of cast metal.

Tests: The standard tests for a portable platform scale shall apply.
