

OFFICE OF THE DIRECTOR

TRADE AND COMMERCE
CANADA

STANDARDS DIVISION

OTTAWA, March 28th, 1953.

NOTIFICATION OF TYPE LISTING

Under the provisions of the Weights and Measures Act, Chapter 36, S.C. 1951, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus: A prepackaging computing spring and lever counter scale of the cylindrical chart type, Model 18-P-139, manufactured by the Sanitary Scale Company, Belvidere, Illinois, U.S.A.

Rating of Apparatus: 18 lbs. capacity.

Application: Weighing of commodities for prepackaging purposes.

Conditions: As prescribed in P.C. 6894 with the added mandatory requirement that these scales shall not be used on the retail premises of any business enterprise.

Description: The scale is a counter computing cylinder chart scale, equipped with a taring device for prepackaging use. The lever system is of the short and long lever type and the resistance is provided by two pair of helical temperature compensated springs in tandem. The illumination of any specific price per pound is controlled by a knob on the side of the scale which simultaneously controls the positioning of the viewing slot so that the computed value is read through the magnifying glass. The weight is read through a separate window on the dealer's side only. The price per lb. range is from 1 cent to \$1.39. The prices over 99 cents being provided with 2 cent graduations.

Testing: The standard tests for a counter computing scale shall apply.

C. S. Phillips,
Assistant Director (W&M),
