STANDARDS DIVISION

OTTAWA, October 5th, 1953.

NOTIFICATION OF TYPE LISTING

Under the provisions of the Weights and Measures Act, Chapter 36, S.C. 1951, and Regulations thereunder (P.C.6894), the apparatus specified and illustrated herein has been listed as an approved device for RESTRICTED TRADE USE and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Detecto platform dial scale with aperture in dial head casing for reading registration, Model AL2205 DJXP, manufactured by Detecto Scales, Incorporated, 540 Park Avenue, Brooklyn, New York, U.S.A.

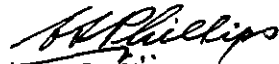

Rating of Apparatus: Capacity 250 lbs.

Application: Weighing of baggage, express parcels and light freight for the purpose of establishing carrying charges when transported by airlines, railways, or other conveyance.

Conditions: As prescribed in P.C.6894. These devices shall bear clearly and permanently in a place visible to the user, the words "Restricted - Trade and Commerce", or the mark "Restricted - T&C", as specified by regulation. Tolerations as provided for this classification shall apply. Means must be installed in the registering head to eliminate parallax.

Description: This device is a platform dial scale of similar construction to the Detecto bench scale listed on Circular SD-WA.158, except that (1) the chart is cylindrical $8\frac{1}{2}$ " diameter by 2 $\frac{1}{8}$ " wide and the registrations which are graduated in 1/2 lb. values are viewed through an aperture supplied with a two to one magnifying lense in the top of the dial head casing; (2) the zero adjustment weight is located on the transfer lever and is adjusted by a screwdriver through a hole in the front of the base housing; (3) the front and back of the dial head housing are blanked off with plates.

Testing: The standard tests for a platform dial shall apply and the tolerances laid down for scales of this restricted type shall be applicable.
