## NOTICE OF APPROVAL

S.WA-32

Revision 1

OTTAWA February 9th, 1970.

Approved: HOBART COMPUTING COUNTER SCALE-MODEL 970

manufactured by the Hobart Manufacturing Co. Ltd., 190 Railside Road, Don Mills, Ontario.

Apparatus Listed: Model 970 Computing Counter Scale.

Load Rating: Maximum capacity - 30 pounds.

Application: Weighing commodities in retail trade.

Description: This scale is equipped with a spring and lever weighing mechanism. Load resistance is provided by means of a pair of coil spring assemblies connected in parallel. Each spring assembly consists of two springs connected in tandem.

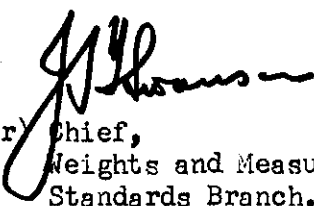

The chart is cylindrical type and is actuated by means of a rack and pinion drive. Weight and price are displayed on the vendor's side of the scale. Weight only is shown on the customer's side.

The scale housing is of sheet metal with porcelain enamel finish. The commodity holder may be a flat platter, a pan or a scoop.

Testing: The standard tests for a computing counter scale shall apply.
