GLOBE-STIMPSON COMPUTING COUNTER SCALE

Manufacturer: Stimpson Computing Scale Co. Inc.
Louisville, Kentucky, U.S.A.

Apparatus: Computing Counter Scale, Model 81.

Rating: Maximum capacity - 30 pounds.

Application: The weighing of commodities in trade.

Description: This scale is equipped with two A-shaped cast levers, mounted one above the other. Load resistance is by means of two pairs of helical springs connected in tandem.

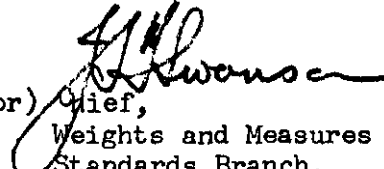

The chart is cylindrical type, in two halves, with centre drive. The drive mechanism is rack and pinion type. Scales may be furnished either in direct reading style or with angled viewing windows.

The scale is enclosed in an enamelled sheet-metal housing.

Testing: The standard tests for counter scales shall apply.

References: SW - 85 - S15
