Note: The model numbers represent the rail size and capacity.

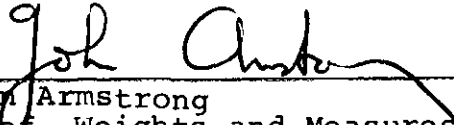

Approved Accessories: This device may be used with any approved compatible accessory.

Device Description: This device is a self-contained electronic overhead track scale. The weighing rail is of stainless steel and is supported at each end by a matched pair of transducer bending beam load cells. The load hook may be borne by a single track roller or by a multiple roller carriage. Weight indication is by means of any approved compatible electronic indicator

Conditions of Approval:

1. This approval covers 10 devices only. Each device sold must be reported to the Chief, Weights and Measures by the manufacturer or distributor.
2. No device shall be sold for use in trade without written disclosure to the purchaser, prior to the sale, that the device has received only temporary approval.
3. This approval to expire one year from date of issue.
