NOTICE OF APPROVAL - AVIS D'APPROBATION

DETECTO - AIRLINE BAGGAGE SCALE

MANUFACTURER: Detecto Scales Company
103-00 Foster Ave.
Brooklyn, New York

TYPE OF DEVICE: Platform floor scale with mechanical drum-type indicator, or with electronic digital readout in conjunction with a load cell.

<u>Model Series</u>		<u>Max. Capacity</u>	
<u>Mechanical Ind.</u>	<u>Digital Ind.</u>	<u>Pounds</u>	<u>Kilograms</u>
<u>Former No.</u>	<u>Current No.</u>		
2205	2250	400	200

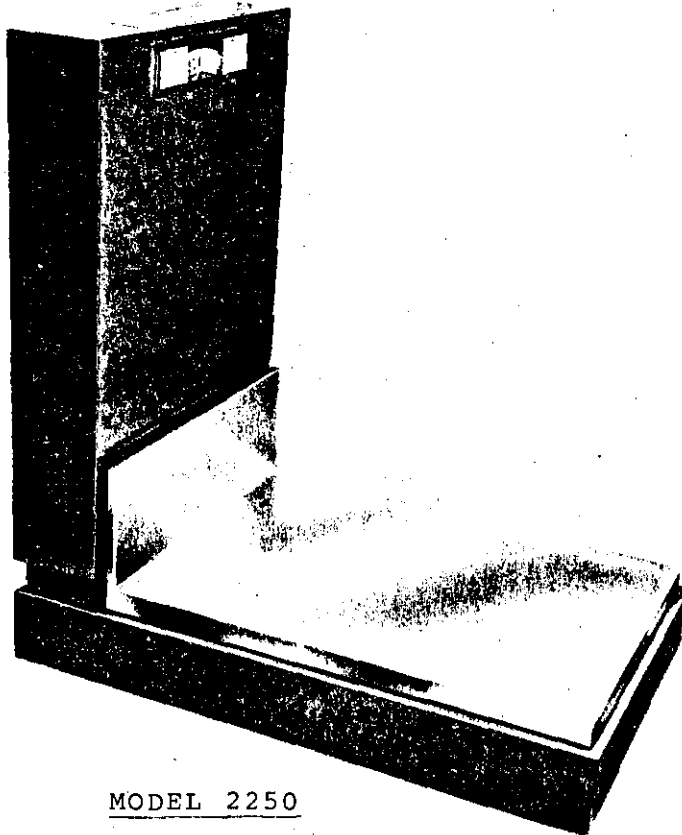

APPLICATION: The weighing of baggage and other items for the purpose of determining transportation charges by airlines, railways, or other conveyance.

DESCRIPTION: These scales are equipped with two T-shaped load levers coupled to a transfer lever. Mechanical indicator scales utilize a drum-type indicator, with an aperture in the top of the dial housing to facilitate weight reading from above. The scale may also incorporate a vertical dial to provide for front reading as well.

Electronic readout scales, are also top-reading style, with weight sensing by means of a tension load cell installed at the steelyard.

These scales may have enclosures suitable for either open well installation, or under counter installation, the latter being available either with or without a cabinet.
