STANDARDS BRANCH - DIRECTION DES NORMES

NOTICE OF APPROVAL

S.WA-250

Revision (1)

OTTAWA February 2, 1970.

Approved: BERKEL COMPUTING COUNTER SCALES - MODELS 301, 306

manufactured by S. A. des Brevets Van Berkel, Brussels, Belgium; represented by Berkel Products Co. Ltd., 1825 Dundas Hwy. E., Cooksville, Ontario.

Apparatus Listed: Computing Counter Scales -

<u>Model Numbers</u>		<u>Chart Aspect</u>
<u>Old No.</u>	<u>New No.</u>	
1301	301	Above horizontal
1306	306	Horizontal

Load Rating: Maximum capacity - 30 pounds.

Application: The weighing of commodities in retail trade.

Description: These scales are equipped with a weighing mechanism of the spring and lever type. The load lever is of the second order and is of cast construction. Load resistance is by means of a pair of coil spring assemblies connected in parallel. Each spring assembly consists of two springs connected in tandem.

The chart is cylindrical type and is actuated by means of a rack and pinion drive. Weight and price are displayed on the vendor's side of the scale. Weight only is shown on the customer's side. Both sides are electrically lighted.

Models 301 and 306 are identical scales except for a difference in reading angle.

These scales supersede Berkel model 1300 and 1305 computing scales which are listed on S.WA-77.

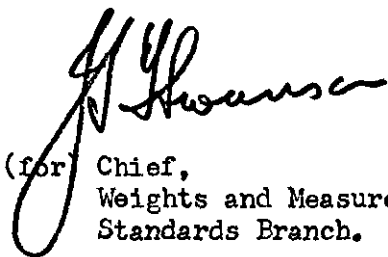

Testing: The standard tests for computing counter scales shall apply.
