APPROVAL LISTING

EXACT WEIGHT - SACKING SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1958, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Sacking scale models: 2224, 2225, 2226, 2227, 2228 and 2229, capacity each model 200 pounds, manufactured by The Exact Weight Scale Company, 528 East Town Street, COLUMBUS 15, Ohio, U.S.A.

Application: Bagging free running material.

Conditions: As prescribed in P.C. 6894 with the additional condition that the device be not used for bagging weights of less than 50-pounds.

Description: This device is basically a steelyard lever equipped with a counterpoise hanger, counterpoise weights and over and under indicator mounted at eye level. The scale is equipped with an oil dashpot, bearings are agate and pivots are hardened steel chrome plated. Thrust plates are adjustable. The hopper is equipped with "Lockjaw" bag holder and manually operated cut-off gate.

The scale may be supported on a variety of stands, or suspended. The model number varies depending on the type of scale support.

Testing: The standard tests for a bagging scale shall apply and notice should be taken of the requirements of table 15, schedule VIII, P.C. 6894.
