APPROVAL LISTING

HOWE - LOW BOY FISH SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Portable Platform, short column, fish scale; Model 30150-D with a capacity of 1,000 lbs.

Application: Weighing of fish aboard fishing boats or fish processing plant use.

Conditions: As prescribed in P.C. 6894.

Description: This device is a short column platform scale equipped with a double bar beam and is basically similar to Model 54 listed on SD-W106 except that: (1) it is not normally equipped with wheels, (2) it is equipped with a shelf lever.

A steel guard protects the beam. The main beam bar is graduated in 100 lb. increments and the auxiliary bar is graduated to 100 lbs. x 1/2 lb. increments. Pivots and bearings are specially treated to withstand corrosion. Main poises are drilled for water drain.

Testing: The standard tests for a platform scale shall apply and in addition, the scale should be checked for accuracy where the base is located in an out of level condition of 1/2" on the length or width of the frame.
