APPROVAL LISTING

STATHMOS - OVERHEAD TRACK SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Overhead track scale with dial registration Model 507.385 manufactured by Stathmos Scale Manufacturing Company, 417 Birchmount Road, Scarborough, Ontario.

Rating of Apparatus: 1,050 lbs. capacity.

Application: General trade use.

Conditions: As prescribed in P.O. 6894.

Description: This device is an overhead track scale equipped with a dial registering head as listed on S-WA.126.

The leverage system consists of two suspended L shaped levers from which the load rail is suspended. The transfer lever is equipped with an adjustable fulcrum, nose iron and balance weight. A connecting rod links the transfer lever with the shelf lever in the lower dial cabinet. Four check rods restrict movement of the live rail.

Testing: The standard tests for an overhead track scale shall apply.
