APPROVAL LISTING

BRECKNELL - PORTABLE PLATFORM SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Portable floor type platform scale equipped with beam and counterpoise weights, Models 721 and 722 with capacities of 300 pounds, 500 pounds and 1000 pounds manufactured by Charles W. Brecknell Limited, Birmingham, England.

Application: Weighing commodities in general trade.

Conditions: As prescribed in P.C. 6894.

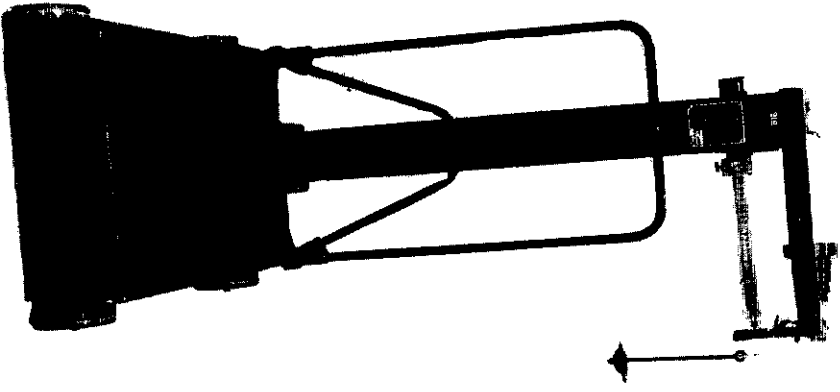

Description: This device is a portable floor scale equipped with wheels, single bar registering beam and counterpoise weights. The leverage system consists of two A type levers, one lever having an extension arm to transfer power to the beam rod. The levers are suspended from corner links, bearings are V notched steel bar stock and retained in position with set screws. The single bar brass beam is graduated 25 lbs. x 4 oz. and the base and platform are cast iron.

Testing: The standard tests for a platform scale shall apply.
