APPROVAL LISTING

YAMATO - BENCH SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Bench type platform beam scale model B-36
manufactured by Yamato Scale Company, Hyogo, Japan.

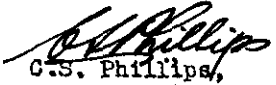

Rating of Apparatus: 200 pounds capacity.

Application: Weighing commodities in general trade and
industrial use.

Conditions: As prescribed in P.C. 6894.

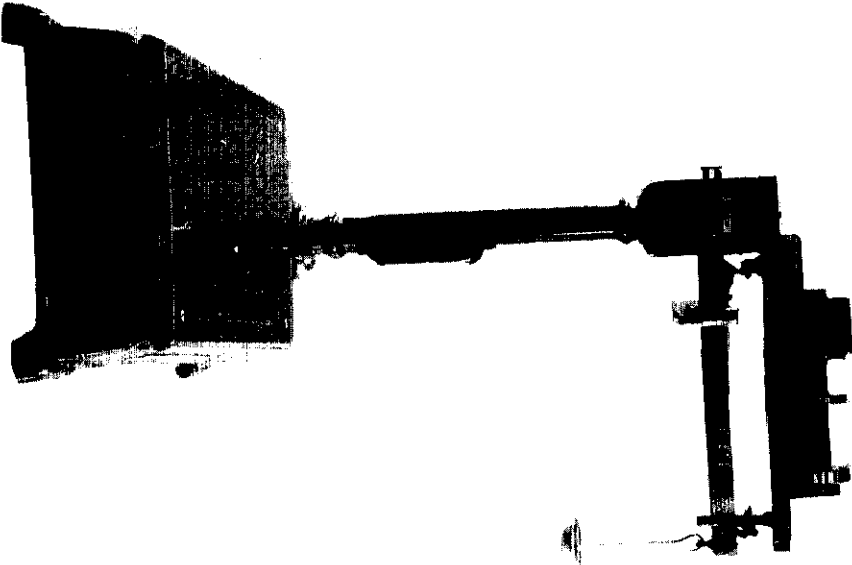

Description: This device is a platform type bench scale equipped with a 10 pound capacity brass beam graduated by 2 oz. graduations. The base, platform frame, column and beam bridge are cast iron. The under deck levers are cast iron U type with one lever having an extension to the connecting rod. The scale is provided with a plumb bob type levelling device partly encased with a cast iron casing.

Testing: The standard tests for a platform bench scale shall apply.
