APPROVAL LISTING

SKINNER - PLATFORM DIAL SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Platform dial scales models WB-2-10 and WB-2-5 with capacities of 1000 lbs and 500 lbs respectively, manufactured by Skinner Scales Limited, 51 West Cordova St., Vancouver 4, B.C.

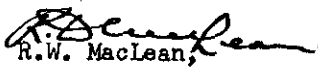

Application: Weighing fish aboard ship and ashore in wholesale quantities and shipping and receiving.

Conditions: As prescribed in P.C.6894.

Description: This device is a platform dial scale which exposes a portion of the reading dial to the observer's view by means of a circular magnifying lens on both front and back of the scale head. The leverage system is basically the same as the scale listed on S-WA 276. The double faced dial is operated by a pinion and rack connected to the connecting rod mechanism which is provided with a dash pot type damping device. The resistance to load is provided by double twin temperature compensated springs suspended top and bottom by cup and button connections to eliminate friction.

Testing: The standard tests for a platform dial scale shall apply.

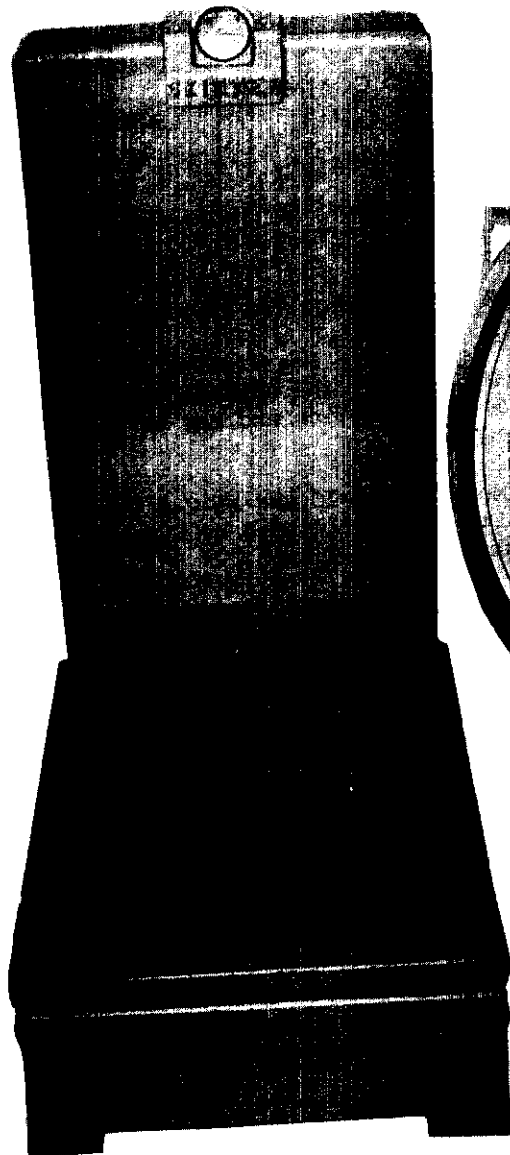

C.S. Phillips,
Chief,
Weights and Measures Division.

R.W. MacLean,
Director,
Standards Branch.
