APPROVAL LISTING

BERKEL - BENCH DIAL SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Platform dial scales for bench use: Model 26001 with capacities of 20 lbs., 28 lbs., 40 lbs., 50 lbs. and Model 26101 with capacities of 40 lbs. and 56 lbs., equipped with unit weight, all with minimum graduations of one ounce.

Model 26001 with 56 lb. capacity and 2 ounce minimum graduations.

Manufactured by Maatschappij Van Berkels Patent N.V. Rotterdam, Holland, and Berkel Products Limited, 2199 Bloor St. W., Toronto 9, Ont.

Application: Weighing commodities in general trade.

Conditions: As prescribed in P.C. 6894.

Description: This device is a platform dial type bench scale equipped with twin pendulums as resistance to load. The scale and dial housing are fabricated from steel plate. The fabricated steel platform is supported by a steel frame which in turn is supported on the four load pivots of the two "A" type levers. An extension from the levers actuates the dial mechanism.

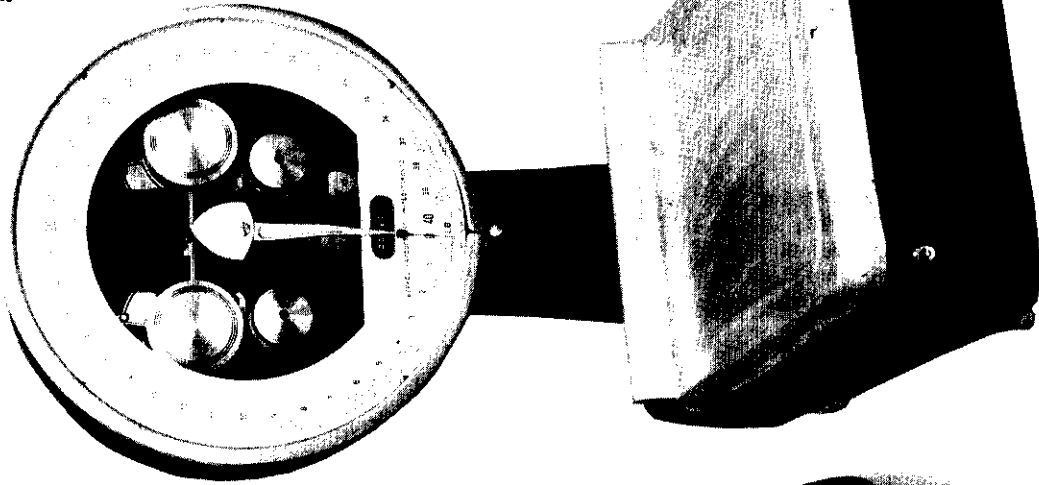

Testing: The standard tests for a bench type platform dial scale shall apply.
