APPROVAL LISTINGINDUSTRIAL MODEL 12 PLATFORM TYPE FISH SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952 and Regulations thereunder (P.C. 6894) the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Portable platform short pillar beam type fish scale, Model 12, manufactured by Industrial Scale Limited, 1932 West 1st Avenue, Vancouver 9, B. C.

Rating of Apparatus: 1000 pounds.

Application: Weighing of fish aboard fishing boats or fish processing plant use.

Conditions: As prescribed in P.C. 6894.

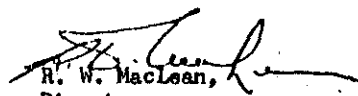

Description: This device is a short pillar platform scale equipped with a double bar beam and a shelf lever.

A steel guard protects the beam. The main beam bar is graduated to 900 pounds in 100 pound increments and the auxiliary bar is graduated to 100 pounds by $\frac{1}{2}$ pound increments.

The leverage system consists of two second class A type cast iron levers. The long lever also acts as a transfer lever.

Testing: The standard tests for a platform scale shall apply and in addition the scale should be checked for accuracy where the base is located in an out of level condition of $\frac{1}{2}$ inch or more on the length or width of the frame.
