APPROVAL LISTING

BERKEL OVERHEAD SHALLOW PATTERN LEVERS

TRACK SCALE MODEL O/S

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C.1952 and Regulations thereunder (P.C.6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Overhead shallow pattern levers track scale, Model O/S, with dial registering head, manufactured by the Berkel Products Company Limited, 1825 Dundas Highway East, Cooksville, Ontario.

Rating of Apparatus: Capacities 800 pounds, 1300 pounds and 1800 pounds.

Application: Static weighing of merchandise such as animal carcasses suspended from an overhead track.

Conditions: As prescribed in P.C. 6894.

Description: This device is an overhead track scale whose load receiving live track forms a section of an overhead conveyor system. The leverage system consists of two shallow pattern end levers connected by a link to a transfer lever which transmits power to the dial head by a rod. Check links are installed in the leverage system to prevent lateral or end movement of the live track.

Testing: The standard tests for an overhead track scale with a dial head shall apply.
