APPROVAL LISTINGHOWE PARCEL POST COUNTER SCALE MODEL 12186

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Parcel Post Counter Scale Model 12186, manufactured by Robert Morse Corporation Limited, Howe-Richardson Scale Division, 1155 Dorchester Blvd. West, Montreal 2, Quebec.

Rating of Apparatus: 25 Pounds.

Application: Parcel Post weighing.

Conditions: As prescribed in P.C. 6894.

Description: This device is an unequal arm platform counter scale with two brass beam bars fastened to the cast iron beam butt with screws. The front beam is graduated to 9 pounds by 1 ounce and is equipped with a cast iron sliding poise. The rear beam is notched and graduated to 16 pounds by 8 pounds and is equipped with a cast iron poise. Pivots are pear shaped hardened steel. Bearings are chilled cast iron provided with dust caps. The load receiving element is stabilized and a balancing shot pot is provided in the bridging below the platter.

Testing: The standard tests for a counter platform scale shall apply.
