APPROVAL LISTING

CANADIAN BENCH PLATFORM UNION BEAM SCALE

Under the provisions of the Weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein have been listed as approved devices and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Bench platform beam scale with scoop (union type).

<u>Model</u>	<u>Platform Capacity</u>	<u>Scoop Capacity</u>	
100	240 pounds	30 pounds	Single beam
102	240 pounds	30 pounds	Double beam

Manufactured by Canadian Scale Company Limited,
305 Horner Avenue, Toronto 14, Ontario.

Rating of Apparatus: As shown above

Application: Weighing of hardware and commodities in general trade.

Conditions: As prescribed in P.C. 6894.

Description: These devices are platform bench scales with a top-mounted scoop for weighing light loads or loose material and may be fitted with single or double beams depending on the model. All models are provided with counterpoise weights. The leverage system is of the long and short Y type lever, the long lever acting as the transfer lever. Suspension mounting of the main levers are achieved by suspending the fulcrum bearings from the top of the base casting at the four corners by means of welded steel links.

Testing: The standard tests for a platform beam scale shall apply.
