APPROVAL LISTING

BERKEL BENCH DIAL SCALE  
MODEL 26001A

Under the provisions of the weights and Measures Act, Chapter 292, R.S.C. 1952, and Regulations thereunder (P.C. 6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus listed: Bench platform dial scale model 26001A manufactured by Berkel Products Company Limited, 1825 Dundas Highway East, Cooksville, Ontario.

Rating of apparatus: Capacities 50 lb., 100 lb., 200 lb., and 25 kg., 50 kg., 100 kg.

Application: Weighing commodities in general trade.

Conditions: As prescribed in P.C. 6894.

Description: This device is a platform dial type bench scale equipped with twin pendulums as resistance to the load.

The lever system consists of two end type fabricated steel levers with a transfer lever to the steelyard rod. The pivots are pear shaped hardened steel and the bearings are V type hardened steel and self aligning.

Testing: The standard tests for a bench type platform dial scale shall apply.
