Ottawa, November 28, 1975

**FAIRBANKS MORSE OVERHEAD TRACK SCALES**

Manufacturer: Colt Industries (Canada) Ltd.,  
Fairbanks Weighing Division,  
Don Mills, Ontario

Apparatus: Overhead Track Scales

<u>Current Model No.</u>	<u>Old Model No.</u>	<u>Style</u>
21-5140	11485-N	Shallow Pattern
21-5240	1670	Deep Pattern

Rating: Maximum capacity, 2000 pounds

Application: The weighing of commodities in trade.

Description: These scales utilize two load levers of cast construction. Shallow pattern scales have L-shaped levers which are designed for installation where head room is restricted. Deep pattern scales have A-shaped levers of conventional design.

Scales are mounted to a length of monorail track which can be incorporated into an overhead track system.

Approved types of Fairbanks Morse indicating dials, beams and weight printers, which are suited for use with overhead lever systems, may be used with these scales.

Testing: The standard tests for overhead track scales shall apply.
