APPROVED A D E FAN TYPE COMPUTING COUNTER SCALE MODEL "JUNIOR"

Apparatus Listed: Fan Type Computing Counter Scale with back and front indication, model "Junior" manufactured by A D E Schnellwaagen - Fabrik, Walter R. Mayer, Hamburg 6, West Germany.

Rating of Apparatus: Capacity 4 pounds.

Application: Weighing in trade.

Description: This device is a fan type computing counter scale with pendulum resistance to the load. The lever system is cast iron of the off-set type, equipped with two sets of pivots. One load and one fulcrum pivot is affixed to either end of the lever. The lever is supported by the fulcrum bearings.

Weight indication may be read from either side. Computed price indication is read from the operator's side only.

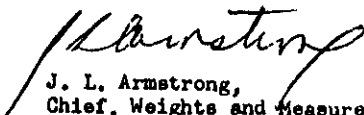

Commodity equipment can be either platter or scoop.

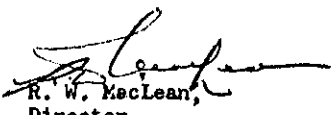

Testing: Standards tests for fan type computing counter scale shall apply.

Reference: SW-85-S28
