STANDARDS BRANCH - DIRECTION DES NORMES

NOTICE OF APPROVAL

S.WA-721

OTTAWA April 17, 1970.

Approved: HOBART EQUAL ARM COUNTER SCALE - MODEL 402

manufactured by Hobart Manufacturing Co. Ltd., 190 Railside Road, Don Mills, Ont.

Apparatus Listed: Equal Arm Counter Scale, Model 402, with over and under indicator and graduated beam.

Load Rating: Maximum capacity - 10 pounds
- 5 kilograms

Application: The weighing of commodities in trade.

Special Conditions: The over and under chart may be graduated but weight values may not be marked thereon.

Description: This scale utilizes an equal arm cast lever, with pans stabilized by means of parallel check links.

Weight indication is by means of a graduated beam and poise and proportions test weights. The commonly used arrangement of pointer and "over/under" chart provides for balance indication.

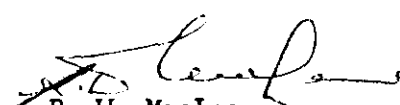

The scale is enclosed in a metal housing with enamel finish. The commodity holder may be a rectangular or circular platter or a plastic scoop.

Testing: The standard tests for equal arm scales shall apply.
