<u>Load Rating:</u>	<u>Model Series</u>	<u>Maximum Capacity</u>	
		<u>Pounds</u>	<u>Kilograms</u>
	10/10	20	10
	30/30	30	15

Application: The weighing of commodities in trade.

Description: These scales utilize an equal arm cast lever, with pans stabilized by means of parallel check links.

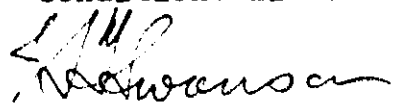

Weight indication is by means of balancing weights in conjunction with a graduated beam and poise and a graduated chart. The chart pointer is actuated by a single cam and pendulum assembly.

Scale housings are of cast aluminum construction. The commodity holder may be a rectangular or circular platter, or a scoop.

Testing: The standard tests for equal arm counter scales shall apply.
