NOTICE OF APPROVAL

S.WA-794

OTTAWA April 16, 1970.

Approved: VERY EQUAL ARM COUNTER SCALE - MODEL 1304BCH

manufactured by W. & T. Avery Ltd., Birmingham, England.
Canadian Distributor: Robert Morse Corp. Ltd., Dominion Industrial Building,
Ville St. Pierre, Quebec.

Apparatus Listed: Equal Arm Counter Scale, Model 1304BCH.

- Front and rear indication
- Charts for weighing and price computing or for weighing only
- Optional tare beam

Load Rating: Maximum capacity - 30 pounds
- 15 kilograms

Application: The weighing of commodities in trade.

Description: These scales utilize a cast iron equal arm load lever with a stabilizing mechanism of the Beranger type. Load resistance is by means of a single pendulum indicator mechanism.

The scale base and indicator housing are of cast construction with porcelain enamel or stove enamel finish.

The commodity holder may be a pan, scoop, or plate of stainless steel or a glass plate. The scale is equipped with levelling feet.

Testing: The standard tests for an equal arm counter scale shall apply.
