MEASUREGRAPH LINEAR MEASURING MACHINE - MODEL 261

- MANUFACTURER : The Measuregraph Company,
4245 Forest Park Blvd.,
St. Louis, Missouri
- APPARATUS : Fabric Measuring Machine, Model 261
- RATING : Maximum registration - 10,000 yards x 1/8 yard.
- APPLICATION : The measurement of drapery materials in
wholesale trade only.

DESCRIPTION : This meter utilizes a knurled aluminum measuring roller, which is rotated by means of the fabric being pulled through the meter. A rubber-covered pressure roller maintains the fabric in contact with the measuring roller. Contact roller pressure may be adjusted as required to handle various types and weights of fabric, an operator's adjusting knob being provided for this purpose.

Registration is by means of a resettable cyclometer-type indicator, with motion transmission from the measuring roller being provided by a chain and sprocket drive assembly.

The meter body is of cast aluminum with enamel finish.

TESTING : The standard tests for fabric measuring machines shall apply.

REFERENCE : GL 1153-57/M382-443
