MEASUREGRAPH FABRIC MEASURING MACHINE

MODELS 564-60, 564-72, 564-84

MANUFACTURER:

The Measuregraph Company
4245 Forest Park Blvd.
St. Louis, Missouri

APPARATUS:

Fabric Measuring and Winding Machine.
Models 564-60, 564-72, 564-84. The
final two digits of the model number
indicate the fabric width capacity of
the machine in inches.

RATING:

Capacity - 10,000 yards x 1/8 yard.

APPLICATION:

The measurement of fabrics in trade, at
the manufacturer or wholesale level.

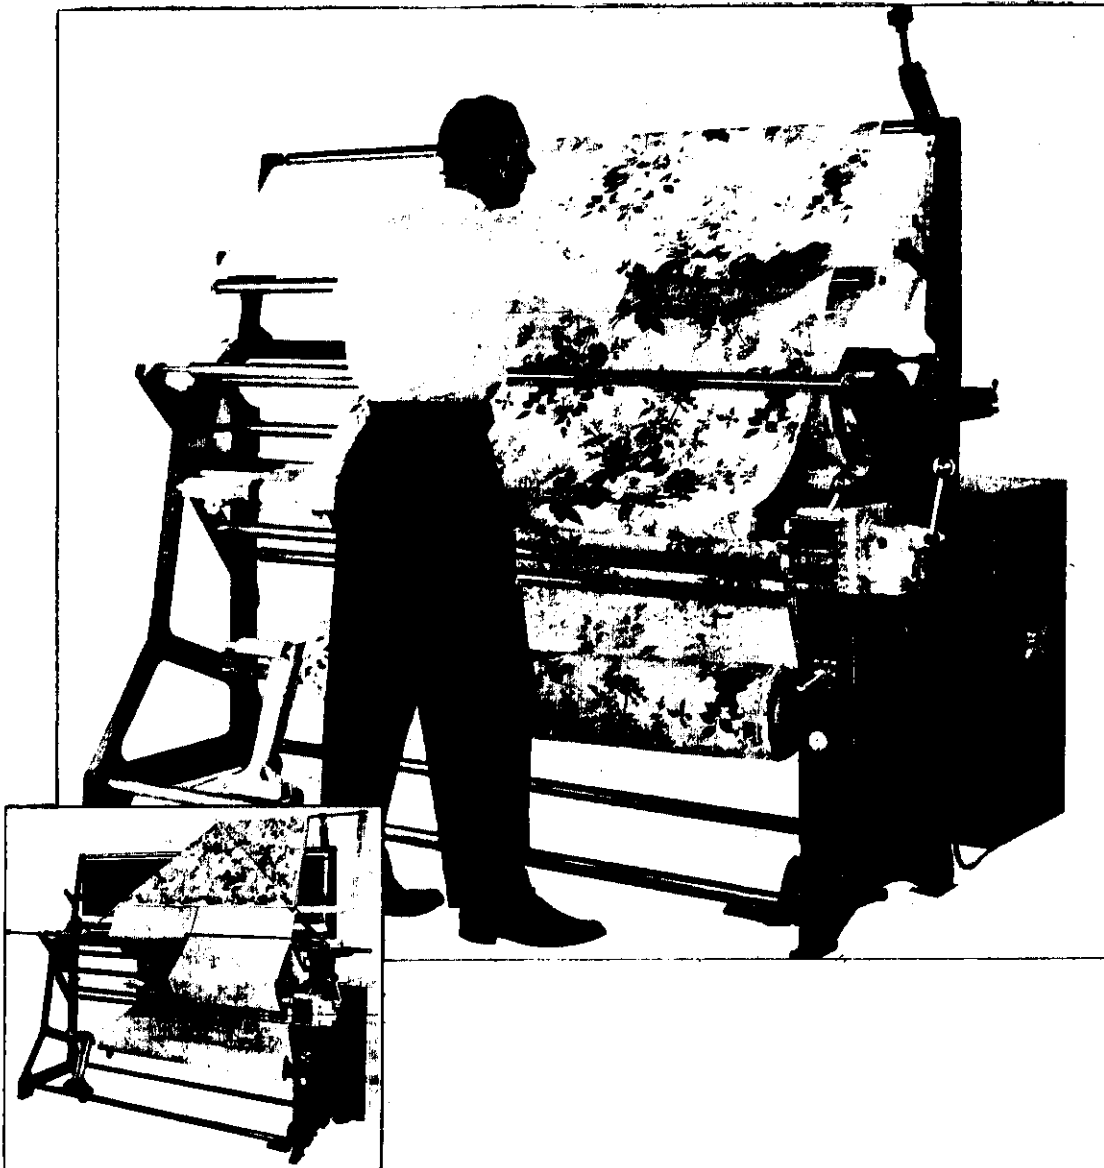

DESCRIPTION:

This machine is electrically-powered and
has a series of rollers, guides and a
meter which enable it to unwind, measure,
and rewind fabric bolts in a continuous
operation.

The measuring roller is of aluminum with
knurled finish and has a circumference of
18 inches. A rubber-covered roller is
used to maintain the fabric in tension
while also maintaining the fabric in
contact with the measuring roller. The
tension roller force can be adjusted to
suit the type of fabric being measured.
