PITNEY-BOWES POSTAL SCALE

Manufacturer: Pitney-Bowes of Canada Ltd.,
909 Yonge St.,
Toronto, Ontario

Apparatus: Postal Scale, beam type, Model 4917

Capacity: 1 pound

Application: Mail weighing and the determination of postal charges.

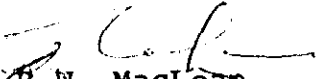

Description: This scale is a single lever beam type with a sliding poise. Postal charges are marked on a chart which is mounted below the beam, the charge being indicated by means of an indicating line on the poise.

The beam and beam supports are fabricated from pressed sheet steel. The scale housing is die cast aluminum with enamel finish. The platter is of moulded plastic material.

Testing: The standard tests for small platform scales shall apply.

Reference: GL1153-57/P272-341

Conditions of Approval: Approval is granted under the Weights and Measures Act, RSC 1970, C.W-7 and Regulations thereunder (P.C. 6894) for use in Canada under the general conditions of P.C. 6894 and under any special conditions listed above.
