TRINER POSTAL SCALE-MODEL AA-6

- Manufacturer: Triner Scale and Mfg. Co., of Canada Ltd.,
Markham, Ontario.
- Apparatus: Computing beam type postal scale-model AA-6.
- Capacity: 6 pounds
- Application: Postal weighing and the determination of postal
charges.
- Description: This scale is equipped with a single load lever
and a registering beam and is furnished with
counterpoise weights which may be applied to a
pan which is suspended from the end of the beam.
The scale is equipped with a postal price chart
showing both parcel post and letter charges.
Construction is principally of formed sheet steel,
assembled by means of spot welds and screws.
- Testing: The standard tests for beam type counter scales
shall apply.
- Reference: GL 1153-57/T167-170
- Conditions of Approval: Approval is granted under the Weights and
Measures Act, S.C. 1970-71-72, Chapter 36, and the Weights and
Measures Regulations P.C. 1974-1461 of June 27, 1974 for use in
Canada under the general conditions of the said Regulations, and
under any special conditions listed above.
