EASTERN AIRLINE BAGGAGE SCALE

Manufactured For: Eastern Scale Works Limited,
Toronto, Ontario

By Detecto Scales Inc.,
Brooklyn, New York

Apparatus: Airline Baggage Scale, Model AL2300.

Rating: Capacity - Avoirdupois, 300 pounds
- Metric, 135 kilograms

Application: The weighing of baggage, express parcels,
and freight, for the purpose of establishing carrying charges
when transported by airlines, railways, and other types of
conveyance.

Description: This scale is equipped with two A-shaped load
levers of welded steel construction. The head mechanism is
double pendulum type with rack and pinion drive to the weight
reading chart.

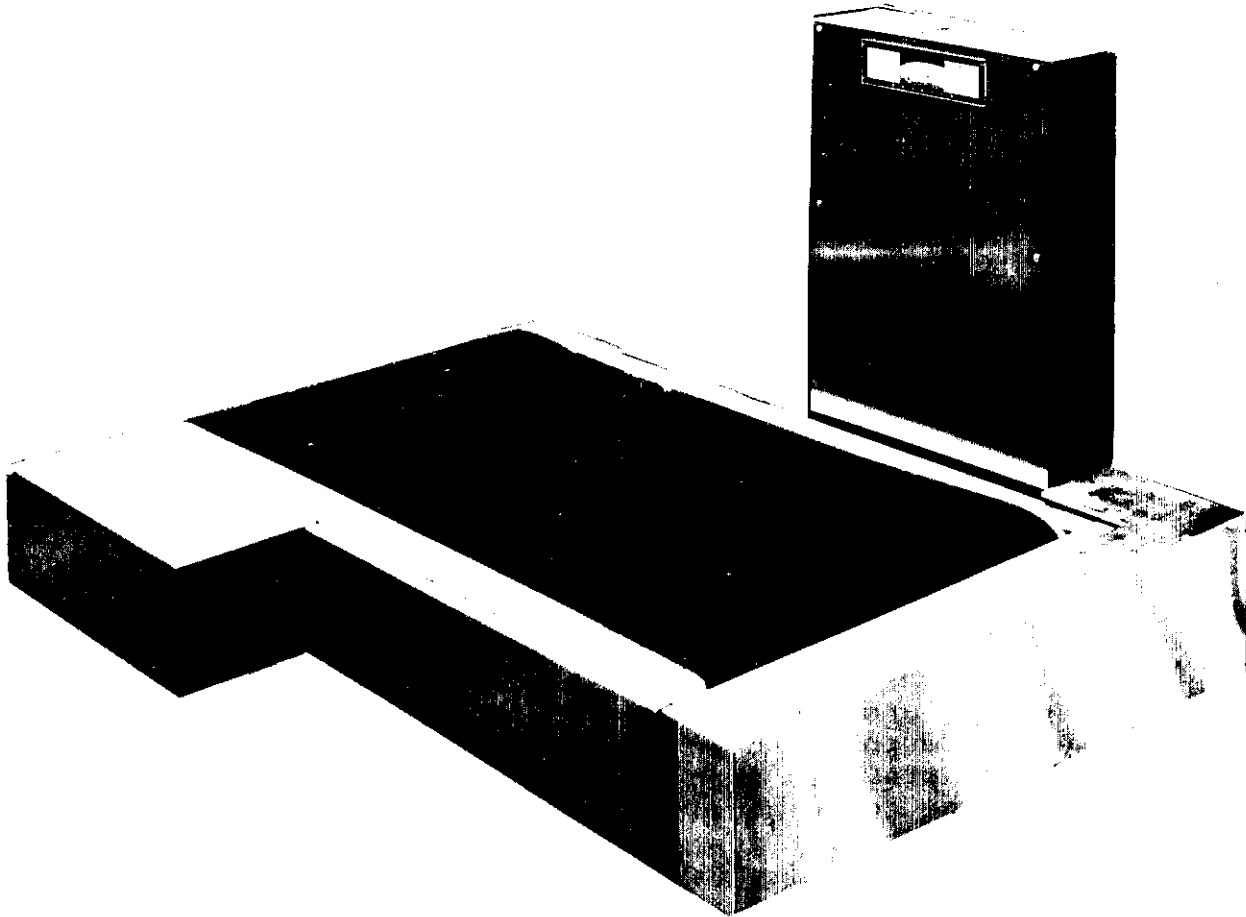

The weight chart is drum type, and has separate
graduation scales on the drum rim and on the front surface, to
permit top-reading and front-reading respectively. Scales are
graduated in avoirdupois and in metric units, and a separate
indicator mark is provided for each set of graduations.

The scale housings are of welded steel construction.
This scale is intended for installation in a baggage conveyor system,
the load platform being a conveyor section.
