| <u>Model No.</u> | <u>Capacity</u><br><u>Tons</u> | <u>No. of</u><br><u>Sections</u> | <u>Platform</u><br><u>Size - ft.</u> |
|------------------|--------------------------------|----------------------------------|--------------------------------------|
| 75604 LC         | 75                             | 4                                | 60 x 10                              |
| 75704 LC         | 75                             | 4                                | 70 x 10                              |

Indicator: These scales may be equipped with any approved type of weight indicator and printer with which they are compatible.

Application: The weighing of loaded and empty motor trucks in trade.

These scales are of similar design to the CLP series pit type scales approved on SWA-1110 except that they utilize compression type load cells. Deck may be concrete, steel or timber construction.
