1992-08-05

Dear Sir,

This letter is to correct the description of the modifications indicated in the three letters recently released under each of the above mentioned projects. The modifications to those devices approved under Notices of Approval, S.WA-2159, AV-2192, and AV-2242 should read as follows:

- these devices have been modified by installing hose plug adaptors in order to prepare them with vapour recovery equipment when approval is received for such use.
-

I am advised by the Volume Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approval. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

H.L. Fraser, A/Director
Legal Metrology Branch
