Gilbarco Canada Ltd. 1360 California Ave. Brockville, Ontario K6V 5X2 Attn: Mr. David Massey

Dear Sir,

This is in response to your recent notification given in accordance with the Weights and Measures Regulations, Section 14, regarding devices approved under Motices of Approval: AV-2209, AV-2224 and AV-2228.

It is noted that these devices are to be modified as follows:

As an option, the fuel dispenser is activated by a "push to start" button instead of lifting a handle switch. When the nozzle is returned to the boot, the nozzle activates a proximity switch on the boot flap which will turn the pump off.

I am advised by the Volume Metrology Laboratory that their evaluation of the proposed modifications indicates that they may be regarded as immaterial in relation to the approval provisions of the Act. Accordingly, your notification is acknowledged and the modifications are accepted as being included within the above-noted approvals. All recipients of the approval notice are being informed by copy of this letter.

Yours truly,

W.R. Virtue, Chief

Legal Metrology Laboratories
