SD-WA.116

DEPARTMENT OF TRADE AND COMMERCE
STANDARDS DIVISION

OTTAWA, July 31st, 1952.

NOTIFICATION OF TYPE LISTING

Under the provisions of the appropriate Act, the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Authority: Weights and Measures Act, Chapter 36, S.C. 1951 and Regulations thereunder (P.C.6894).

Apparatus Listed: Siamese type computing dispenser for retail trade use, Model S-22, manufactured by the S.F. Bowser Company, Limited, Hamilton, Ontario.

Rating of Apparatus: 12 gallons per minute capacity, one unit delivering; 8 gallons per minute capacity each unit, two units delivering simultaneously.

Application: Retail gasoline trade.

Conditions: As prescribed in P.C. 6894, with the added requirements that the registering dial shall be marked with the words "THIS HOSE SERVES ONLY THIS DIAL" with appropriate arrows, applied in a reasonably permanent manner and to be in view of and easily read by the customer. Hose nozzles must be equipped with automatic check valves in addition to the manually operated valve.

Description: This gasoline dispenser is the Canadian model of the Siamese gasoline dispenser, whereas Model 22 is the American designed model listed in Circular SD-WA.99.

The two models are similar in design and construction except that: (1) Model S-22 is fitted with an air eliminator as a separate unit in the assembly and is not incorporated in the meter housing as in Model 22; (2) To accommodate the air eliminator as a separate unit the location of the pump and motor has been changed.

Testing: The standard tests for a retail gasoline meter pump shall apply to each metering unit.

C. S. Phillips.
Assistant Director (W&M),
Standards Division.

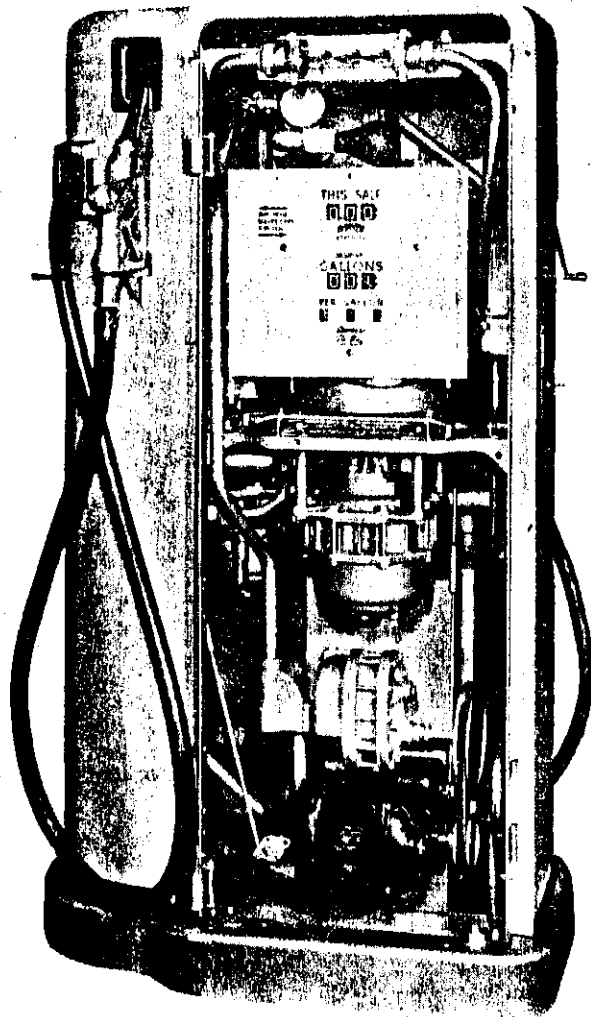

R. W. MacLean,
Director,
Standards Division.
