## STANDARDS DIVISION

OTTAWA, October 9th, 1953.

## NOTIFICATION OF TYPE LISTING

Under the provisions of the Weights and Measures Act, Chapter 36, S.C. 1951, and Regulations thereunder (P.C.6894), the apparatus specified and illustrated herein has been listed as an approved device and may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Computing meter pump gasoline dispenser, Model C-906, manufactured by Gilbert and Barker Manufacturing Company, 64 Jefferson Avenue, Toronto, Ont.

Rating of Apparatus: 12 gallons per minute.

Application: Retail gasoline trade.

Conditions: As prescribed in P.C.6894.

Description: This device is a retail gasoline dispenser of the computing type and is basically similar to Model #C-996 listed on approval circular SD-WA.18, except that:

- (1) the air separator has been consolidated with the pump into a single unit;
- (2) the pump casing has been altered;
- (3) the indicator figures are now white on a black background instead of black on a white background.

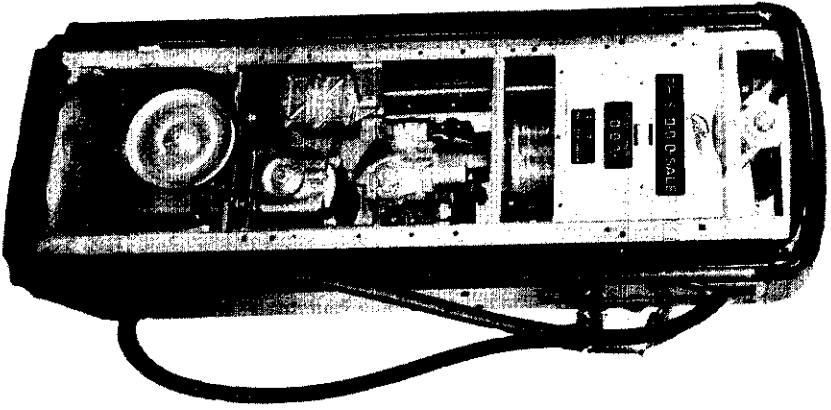

Testing: The standard tests for a retail computing gasoline dispenser shall apply.
