STANDARDS DIVISION

OTTAWA, October 27th, 1954.

NOTIFICATION OF TYPE LISTING

Retail Gasoline Dispensing Meters - Manufactured by  
the Wayne Pump Company, 829 Richmond Street West,  
Toronto, Ont.

Under the provisions of the Weights and Measures Act, Chapter  
292, R.S.C. 1952, and Regulations thereunder (F.C. 6894), the apparatus  
specified and illustrated herein have been listed as approved devices and  
may be used in Canada in accordance with the conditions applicable.

Apparatus Listed: Computing retail gasoline dispensing meters, Models  
500-1-194, 505-1-194, 500-1-198, 505-1-198, 505 DUO-1-198 and  
505-2-198.

Rating of Apparatus: 12.5 G.P.M.

Application: Retail gasoline trade.

Conditions: As prescribed in P.C. 6894.

Description: These devices are similar in design to Models 500, 505  
DUO-1 and DUO-2 listed on SD-WA. 86, SD-WA.161 and SD-WA.173,  
except that the pumping unit and motor is located in a separate  
cabinet near the storage tank or a submersible pump is used  
in the storage tank. The air eliminator may be either located  
within the dispenser cabinet or adjacent to the remote pumping  
unit. If a turbine type submersible pump is used an air  
release is not necessary.

The suffix figure 194 in the model number indicates that the  
air release is included in the dispensing cabinet assembly.

The suffix figure 198 indicates that the air release is not  
included in the dispensing cabinet.

A pump control switch is located in the dispensing cabinet  
which is interlocked with the registering head and operates in  
a similar manner to the meter pumps already quoted as listed.

Testing: The standard tests for a meter pump shall apply.
